VIRGINIA GAZETTE,  
Williamsburg, Va.

The failure of the wheat crop abroad means that our farmers will get good prices for their product.

The new tariff bill has now gone into effect, and as consequence all woolen goods have risen from 15 to 20 per cent. Sugar and tea are also taxed and they will take a jump. The people must pay tribute to the Trusts. Now, let us be ready to judge the principle of protection when the time arrives to elect our Congressmen. If it is a good thing we want to keep it, if not we must discard it and try something else.

We are doing more to get good settlers here than our fellow townsmen are willing to admit—at least more than some of the local merchants give us credit for, judging from the support they have given us in the way of advertising. Every family that locates here becomes a patron of our local merchants. The merchants virtually aid themselves when they liberally patronize us. We don't want any of our merchants to advertise through charity. We have built up a pretty good business with the help of a few of our most progressive merchants, lawyers and other public spirited citizens. We are anxious to have a few more local advertisers, for our trade edition now in the press. We want to show strangers that we have a live town. It will aid us in our efforts to get people here. Will our merchants help retard growth of our town longer? We shall see.

## Distance to Points.

Williamsburg to Newport News, 27 miles; to Old Point Comfort, 36; to Richmond 48 miles; to Norfolk, 39 miles; to Washington, 164; to Baltimore, 190; to Philadelphia 300 miles; to New York, 340 miles; to Boston, 640 miles, and to Cincinnati, 629 miles. You see by the above that we are right in it; only a short distance to all the great markets of the country, and the cheap, constant communication both by water and rail with the above and thousands of other

points makes Williamsburg a desirable point to locate and do business. A good location is everything.

## Health.

Persons with weak lungs would be benefitted here. The air is pure; the salt air from the ocean, the pitch and pine from our forests are just the thing for lung trouble, and asthma and catarrh can also be cured in this climate; and our sun-baths are just the thing for rheumatism. We are just far enough from the ocean to be healthful, and at the same time get the full benefit, for we escape the frequent fogs prevalent further down. If you are in poor health and want a home in the sunny South "near the sea," where, if you wish, you can live out of doors ten out of twelve months, come and see us.

## Scott's Emulsion

of Cod-liver Oil with Hypophosphites, can be taken as easily in summer as in winter. Unlike the plain oil it is palatable, and the hypophosphites that are in it aid in digestion and at the same time tone up the system.

For sickly, delicate children, and for those whose lungs are affected, it is a mistake to leave it off in the summer months. The dose may be reduced if necessary.

We recommend the small size especially for summer use, and for children, where a smaller dose is required. It should be kept in a cool place after it is once opened.

For sale by all druggists at 25c and 50c.
